FILL IT UP!

Here's our first D.S. al Coda—a special moment for those of you just discovering the joys of chart reading. So here's what you do: At the end of Letter C, go back to the sign (S), play all the way to the bar before Letter C, and then jump to the Coda (D.S. AL CODA) for the last 3 bars.

There is solo space in this chart as well as an ensemble riff at Letter A, so there's enough going on to keep you busy for quite awhile. If you don't want to solo, then don't; simply practice your songo through the solo section. Everyone will enjoy locking into the amazing lightning-fast conga work of Mr. Morales-Matos.
